Re: Case No. 93-402

To Whom it May Concern:

Our subsidiary company, Emro Marketing, owns property at 7690 Burlington Pike in Florence, Kentucky. We recently received notice that SMSA Limited Partnership applied to the Public Service Commission of Kentucky for a 184' tower, which would be located at 7673 Burlington Pike in Florence, Kentucky. It is my understanding the referenced company would use the tower for a cellular radio telecommunications receiver.

While we understand the need for a tower of this nature, we do not believe the location chosen by the applicant is appropriate. Since we made a major capital investment on our property in 1989, we are concerned with the appearance of the area. In our opinion, a tower of this nature should be located in an area with substantially public exposure than this site has. Frankly, the applicant also approached us about installing this tower on a piece of surplus real estate behind our own facility, and we rejected the idea for the same reason. I would urge the Commission to strongly consider the potential adverse impact that the tower could have on this area.

Best regards,
